

Cyber adAPT Announces ELITE Channel Partner Program

Unique Distribution Model, Premier Commercial Rewards and Product Co-creation Headline the 2016 Cyber adAPT Partner Program

Aug 16, 2016 – Half Moon Bay, Calif. Cyber adAPT® announced today the launch of its 'ELITE' channel program offering benefits to strategic consultants, system integrators and value added resellers.

Cyber adAPT is reimagining the approach to securing mobile-enabled enterprises. A single platform with secure mobile communications and attack detection at its core allows for partners to augment their existing security practices with a unique and proven capability.

Analysts are actively educating the market and are insistent about the need for solutions beyond MDM and EMM to equip organizations with secure mobility. [Gartner's own research and advisory on MTD \(Mobile Threat Defense\)](#) supports the emergence of a new category of solution with which Cyber adAPT is already serving many customers.

Cyber adAPT is expanding operations in North America with certified, select partners like Strategic Operational Solutions (STOPSO), I2O Solutions and Continuity Focus - all practitioners in cyber consulting and solutions delivery.

Steve Chong, Director of STOPSO said, "As one of the most competitive and fastest growing IT contractors to the federal government, our clients are amongst the most actively targeted in the world. By adding deployment and support of Cyber adAPT solutions to our mature cyber practice, we provide the most comprehensive defense for remote and mobile operations."

John Jaisaree, Founder, I2O Solutions said, "85% of our clients suspect that they have been breached, but have no way proving a hacker's existence within their network. Our partnership with Cyber adAPT allows us to provide rock-solid mobile end-point protection with advanced detection providing complete visibility of any unusual traffic."

Cyber adAPT's ELITE Partner Program delivers:

- Distinct technological advantages over all competitors (customer and analyst validated)
- Extensive training and support
- Supporting sales methodology that closes business rapidly
- Deal registration and selective enrollment
- Access to marketing support and shared investments

Cyber adAPT SVP, Jason Lundy, commented, "Our ELITE partners have trusted relationships and deep domain expertise in industries and use cases. Cyber adAPT is providing them with the most advanced integrated platform to tackle the fast growing threat. Our partners are key to helping steer our roadmap and expand our business and we are dedicated to their success."
